Hunk of the month

Yes, he's handsome and very French. But PHILIPPE BENICHOU is more than good looks and an accent. As an actor under the pseudonym of Eric Stone, the Algerian-born Benichou has appeared on Broadway, and in movies and on television. His love for acting has allowed him to branch out into writing, directing and producing.

But Philippe is also a talented painter whose work has been shown from Paris to Los Angeles. His work gets its first major SoCal show at the Johnson Art Collection in West Hollywood. Titled "Freedom," it runs through July 25. - PG
